INTERNATIONAL CATHOLIC STEWARDSHIP COUNCIL
57th Annual ICSC Conference
October 6-9 | Sheraton Grand Hotel | Chicago, Illinois

Support for Parish Business Administrators!

ICSC recognizes the vital role of parish business administration professionals in the success of our parishes today. Often, these professionals find their responsibilities expanding into areas that they may have limited training and they look for guidance to help them assist their pastors with the many new challenges facing our parishes.

In addition to more than eighty sessions available to choose from, many attendees enjoy the opportunities to make new contacts and share professional ideas with those in similar positions. Previous attendees have shared that they find the conference inspiring and have developed a greater understanding and appreciation for their own important ministry as a steward of their parish resources.

Another benefit of the ICSC annual conference is the opportunity to engage with the many strategic partners and exhibitors who offer support, products and resources to help business administration professionals meet the needs of their parishes.

Parish leaders from across the country will present topics that are specific to the needs of parish business administrators. This year's topics include:

- Human Resource Tools for the Parish Administrator
- From Strategic Planning to Better Parish Decision-making
- A View from the Pew: Consumer Expectations in Church Technology
- How Marketing and "Branding" Techniques Lead to a More Effective Evangelization Ministry
- Extending Generosity Beyond the Parish Walls: A Reflection from the USCCB
- Moving the Parish from "Maintenance" to "Missionary Discipleship"
- Great Tech Tips for the Parish Administrator
- Converting First-Time Givers to Perpetual Givers

In addition to these topics, there are more than seventy other sessions to choose from. Attendees are free to participate in any topic that best suits their needs.
